

Indicator metadata: Development of urban use and population for the period 2000-2018 per FUA

Ratio of percentage change of urban use areas and population change in 3 categories:

- increase of urban use areas by declining population
- increase of population higher than increase of urban use areas
- increase of urban use areas higher than increase of population

Size proportional to absolute change in ha of urban use areas.

(Urban use CLC classes: Urban fabric: 111,112; industrial: 121; infrastructure: 122, 123, 124; construction sites: 133; urban green: 141, 142)
