

# Indicator metadata: Project partnerships (total number)

The analysis of existing partnerships relies on two main components: a quantitative analysis at NUTS2 level, emphasising the existing links and connections between the CE regions on thematic areas, and a qualitative study of the different typologies of partnerships and territorial cooperation agreements, highlighting instruments and policies employed as well as good practices, governance mechanisms and solutions impacting territorial cooperation. The quantitative analysis relies on data covering the European Territorial Cooperation (ETC), the EU Funding Instrument for the environment and climate action (LIFE), and the Framework Programme for Research and Innovation (Horizon 2020).

Based on the territorial coverage of the programmes studied in the quantitative analysis, several types of territorial interaction have been identified:

- Cooperation reflected into the number of projects - anytime a region in the CE area is part of a territorial cooperation project, regardless of its territorial scope.

**Theme(s):** None

## Introduction

**Author:** ESPON project (<https://www.espon.eu/ce-flows>)  
**Contact(s):**

- Davide Fina (Project leader)
- Davide Fina (VVA Economics & Policy) (Point of Contact)

Territorial information:	Nomenclature			
	Spatial Extent	name	version	level
	Central Europe	NUTS	2016	2

**Years:** 2014-2020
