

Indicator metadata: Relative projected population development 2020-2050

The indicator shows the relative projected population change in EU27+4 EFTA countries at NUTS 3 level from 2020 to 2050. Input data was extracted from Eurostat on 18.06.2021, see dataset code [PROJ_19RP3] or following hyperlink: [https://ec.europa.eu/eurostat/databrowser/view/PROJ_19RP3\\$DEFAULTVIEW/default/table](https://ec.europa.eu/eurostat/databrowser/view/PROJ_19RP3$DEFAULTVIEW/default/table)

To calculate the percentage change, the following formula has been used: $\text{percentage change} = (\text{population 2050} - \text{population 2020}) / \text{population 2020}$

Theme(s): Population and living conditions - Population and Living Conditions
