

Indicator metadata: Societal engagement

Societal engagement measures how the public authority entails and encourages the active participation of different actors and stakeholders in public decision-making processes, and their partaking in co-design and co-creation activities to generate public value. It considers the public administration's commitment to implement innovative bottom-up initiatives encouraging the inclusion of society in developing innovation in a more transparent, interactive, and responsive way. Consequently, it provides an overview of the intensity and level of digitalisation of societal engagement initiatives, and their impact on public service design and innovation.

Theme(s): Governance - Governance

Introduction

Author: ESPON Database (<https://database.espon.eu/>)
Contact(s):

- Open and Agile Smart Cities (OASC) (Project leader)
